**Further Notes:**

The 1/3 discount is actually calculated at 34% - e.g. a £9 ticket is rounded to £5.95, not £6.00

| Where applicable the child discount is calculated at 61% of the child fare

Where available the 3 year versions are only available to purchase online, not from a ticket office

| With the 16-25 railcard, one operator - Grand Central - DO allow you to buy discounted 'walk up' First Class tickets

The trial 26-30 Railcard is being used by 10,000 people and is available purely in digital form.

| The Gold Card area is bigger than the Network Card area (as shown in the video)

All Railcards used in the Gold Card area also get a Travelcard discount which applies to Off Peak Zone 1-6 or any Travelcard bought as part of a ticket to London from outside the Zones
